

Essential passenger safeguards to ensure successful and fair devolution of rail services

London TravelWatch is seeking these to make sure that the interests of all passengers, regardless of where they are travelling to or from, are taken into account in any agreement to devolve more responsibility for train services to the Mayor of London through Transport for London (TfL).

1. **Guaranteed even handedness in track access** between continuing Department for Transport franchises and any devolved concession operations so as to ensure that the needs of all passengers are catered for equitably.
2. **Guaranteed interavailability of ordinary tickets over common routes within the London travel area** irrespective of operator.
3. **A commitment to work together with other operators in providing seamless information to passengers**, especially during times of disruption and at interchanges between services provided by franchisees and the concessionaire.
4. **A commitment to an operational agreement to work together in the best interests of all passengers**, sharing resources at times of disruption and where separate provision is not justified, to maximise efficiency.
5. **Separation of the formulae for setting fares** between franchises and concessions, to ensure that political or commercial decisions in either do not have unintended negative or anomalous consequences for the other.
6. **A commitment to regular and meaningful consultation** by all parties with London TravelWatch and Passenger Focus on all issues affecting passengers. This should be inclusive from the tender design stage by TfL through to day to day operation by the concessionaire, and should at a minimum be comparable to that currently required of train operating companies under the existing franchise arrangements and licensing regime.
7. **A commitment to regular and meaningful dialogue with passengers and user groups on issues affecting them.**
8. **A commitment to work with local authorities**, both inside and outside London, to ensure a better whole journey experience, by means of improved interchanges and through ticketing schemes with local public transport operators.
9. **A commitment to transparency of data**, on items such as delay attribution and service performance.
